13 February 1968

MEMORANDUM FOR: 25X1A
[redacted]

SUBJECT : [redacted] Contract for [redacted]
25X1A

25X1A

1. Here again we have a proposed contract as an extension for Phase II of an existing contract which is apparently CPFF, and part of the contractor's plan appears in Figure V, page 15, of the proposal.

2. Again, I feel it is advisable to get this stuff into the data base while it is going by, and then add the specific dates at which reports are due, etc., when they are available.

25X1A

[redacted]

Art:

I love the justification which says that [redacted] has successfully done the first phase of work when, in fact, all they did was handle the subcontract and almost get our neck in the wringer in the process, and, further, on page 8 and 9 they propose to tweak it up a little bit.
